

Visual Information Services has the LED Solution for You!

A Proven Reputation

Visual Information Services Corp. (VISCO) has been a leading supplier of quality LED display communication systems since 1992. VIS display systems are used in a myriad of applications by over 100 of the Fortune 500 companies as well as leading local businesses, banks, churches, municipalities and educational facilities. From fire departments and related services to POP/POS, advertising, corporate/school communications, safety, customer service, and community action—VISCO has the solution.

Professional Integrity

It's not just about the bottom line with us, we care about providing you with the best possible quality solutions for your communication needs. Our customers can be assured that we will stand behind our work.

Because of our exacting standards and quality components, we have exceptional warranties.

Thank you for taking these few moments to learn more about us. We would love to learn more about you. For an in-depth, on-site evaluation and display/software demonstration, please call us at the toll-free number below. Our field manager will coordinate all the particulars to maximize the value of the visit.

Modularity to Better Fit Your Needs

Our whole product line is based on building blocks that allow us to create a customized system for each client without the high costs usually associated with customization. Modularity actually ensures that each client is paying only for the capabilities that fit their particular situation.

Our software and firmware follow this same approach. Our software engineers are adept at creating custom interfaces for displaying information. We offer a number of solutions to give our clients the greatest flexibility in creating their own communication system.

Information delivery choices include LAN/WAN/Internet, fiber optic or wireless ethernet modem, RF wireless, or CDPD devices.

Hands-On Support

Pre- and post-sales "hands-on" support has made our reputation and company grow. You will not be stuck calling the manufacturer yourself. You will have access to local factory-certified service staff, trainers, and installers, and graphics personnel. We offer a personalized experience through the life of your system. We believe that the art of serving reaps rewards for all.
